COURSE DESCRIPTION

MedStar Georgetown Transplant Institute invites you to join the 3rd Annual MedStar Georgetown Transplant Institute Symposium, MGTI 2018 on May 19, 2018. This education program will focus on Advances in Liver Diseases and Transplantation. In addition, the program will feature a dedicated track for the healthcare team and learners participating in the CME activity. For an individual with specific needs, all content and activities presented in this program are available upon request. In support of improving patient care, our medical education (ACCME) activities are accredited by the Accreditation Council for Continuing Medical Education (ACCME), in support of improving patient care. As a provider accredited by the ACCME, it is the policy of MedStar Georgetown University to require all individuals who are in a position to control the content of the educational activity are required to disclose all relevant financial relationships with any commercial interest.
